

## TROLLEY

**244**  
Oblong tube frame with epoxy coat  
16 colors range  
4 Castors  
3 white laminated shelves

**268**  
Oblong tube frame with epoxy coat  
16 colours range  
4 Castors  
3 white compact polystyrene shelves

## PULLEYTHERAPY CAGE

**760 01**  
Upper panel 700 \* 600  
Steel tube frame  
1 panel, 2 stiffening parts  
Metal grating 50\*50

16 colours range  
Width 700 mm  
Depth 600 mm

**750 01**  
Angle pulleytherapy cage  
2000\*1000\*2000  
Steel tube frame  
4 panels 2000\*1000  
1 stiffening parts  
Metal grating 50\*50

16 colours range  
Lenght 2000 mm  
Width 1000 mm  
Height 2000 mm

## FOLDING TABLE

### WOOD

Folding massage table with height adjustable from 60 to 79 cm.  
Vinyl upholstery, 2 anti-fire layers, width 71 cm, thickness 4 cm, oil and water resistant.  
Equipped with:  
- A multi-adjustable head rest.  
- A removable arm rest.  
- A luxury travelling case.  
Table weight 14 kg.

## COUCH WITH ELECTRICAL HEIGHT ADJUSTMENT

### EXCELLENCE

All models are made with a comfortable foam base covered by luxurious vinyl upholstery with a density that enables you to work correctly.  
Equipped with a remote control foot frame that actions the table from where ever you are, a face hole with plug, 4 automatically retractable wheels.

3 Sections with electric flexion position equipped with 4 adjustable arm rests of which 2 are retractable.

### WOOD PLUS

Folding Massage Table with height adjustable from 60 to 90 cm.  
Vinyl upholstery, high quality anti-fire delicate foam, width 71 cm, thickness 5 cm, oil and water resistant.  
Equipped with:  
- A back rest with a face hole, length 70 cm can be tilted from 0° to 70°.  
- A luxury travelling case.  
Table weight 17 kg.

### ELEGANCE PLUS

All models are made with a comfortable foam base covered by luxurious vinyl upholstery with a density that enables you to work correctly.  
Equipped with a remote control foot frame that actions the table from where ever you are, a face hole with plug, 4 automatically retractable wheels.

2 Sections, head rest lenght 760 mm.

EUROPEAN LEADER in:

ELECTROSTIMULATION FOR MEDICAL REHABILITATION,  
PHYSIOTHERAPY,  
SPORTS, AESTHETIC AREA  
AND MACHINE COACHING

**ELECTROTHERAPY**

**PROFESSIONAL USE**  
GENESY 3000 - 423 Programs  
For professional use in the health and rehabilitation sectors. It includes all the currents used for rehabilitation, physiotherapy and neuromotor re-education.

**HOME USE**  
GENESY 600 - 149 Programs  
Electrotherapy device home use for the treatment of pain and the most common pathologies.

**ULTRASOUND THERAPY**

**PROFESSIONAL USE**  
MEDISOUND 3000 - 49 Programs  
Professional device for ultrasound therapy, recommended for rehabilitation and beauty. It is excellent for the most common disorders of the osteoarticular and lymphatic systems.

**HOME USE**  
MEDISOUND PROII - 18 Programs  
Ultrasound therapy device for home use. Recommended for the treatment of the most common disorders of the muscular and articular systems.

**DIATHERMY / TECARTHERAPY**

**PROFESSIONAL USE**  
DIACARE 5000  
Professional device for diathermy operating in resistive and capacitive mode for the treatment of pain and both chronic and acute disorders of osteoarticular and muscular systems. It has high-definition colour touch screen.

**HOME USE**  
DIACARE 1000 RT - 16 Programs  
Device for diathermy operating in resistive mode for home use. It is recommended for the treatment of pain and the most common disorders. It operates on the mains and rechargeable battery.

**ACCESSORIES**

**FUNCTIONAL ASSESSMENT SYSTEM**

IDEAL FOR EVERY PHYSIOTHERAPY AND FUNCTIONAL RECOVERY CENTER

**PHYSIOLAB PRO**  
Is a modular system to assess and control the process of rehabilitation and physical preparation for physiotherapists, doctors, specialist of the functional recovery and athletic trainers. It is an essential instrument to assess and plan trainings, to monitor recoveries to prevent injuries.

**SPORT TECHNOLOGY**

**SOCCER TRAINING MACHINE**

EUROGOAL 1500

EUROGOAL 1000

EUROGOAL has been created not as a substitute of the traditional methods used by coaches so far, but as a helping and complementary instrument during soccer training.

**MAGNETO THERAPY**

**PROFESSIONAL USE**  
MAGNUM 3000 - 63 Programs  
Professional magnetotherapy device with pulsed electromagnetic fields for the biostimulation and regeneration following disorders of the osteoarticular system. It is recommended for arthrosis, osteoporosis, fractures and degeneration of bone tissue.

**HOME USE**  
MAGNUM XL - 26 Programs  
Magnetotherapy device with pulsed electromagnetic fields for home use recommended for the most common disorders of the osteoarticular system.

**LASER THERAPY**

**PROFESSIONAL USE**  
PHYSIOLASER 1000 - 30 Programs  
Professional laser therapy device with biostimulating effect for rehabilitation. It is recommended also for the regeneration of tissues, cells, for stimulating blood flow and for the treatment of trigger points.

**HOME USE**  
PHYSIOLASER 500 - 14 Programs  
Laser therapy device for professional and home use with biostimulating effect for rehabilitation. It is recommended also for the regeneration of tissues, cells, for stimulating blood flow and for the treatment of trigger points.

**SPORT FITNESS - VIBRATION PLATFORMS**

**PHYSIOPLATE FIT - 232 Programs**  
Professional vibration platform for sport, fitness and beauty. Specifically recommended for the improvement of muscle strength and toning and for the improvement of athletic performance in general.

**What is the MAGNUS EFFECT**

Shots with effect in soccer are those in which the kick gives the ball a spin, besides giving it a strong forward movement. This way the ball can curve in the air, clearing obstacles and surprising the goalkeeper. This behavior is explained by the Magnus effect, which in turn is based on fluid mechanics. These are the same laws that determine the lift of an aircraft.
